

White Flower Farm

PLANTSMEN SINCE 1950

Need a speaker for your Garden Club?

Barbara Pierson, White Flower Farm's Nursery Manager, is available for lectures to garden clubs and horticultural associations. Ms. Pierson graduated from Cornell's School of Horticulture and is an absolutely first class horticulturist, having grown up on her family's nursery and working at White Flower Farm for the past 15 years. Barb gives a few garden talks each year, and her charm, good humor, and encyclopedic knowledge of ornamentals and edibles mean her talks are both enormously instructive and highly entertaining. Of course, she has access to our complete slide collection, so the images will make your mouth water. If you would like to hear from Barb, the requirements are simple. She requires a modest fee, her travel expenses, and a guarantee of at least 50 people for speaking engagements 120 miles or more from Litchfield, CT, each of whom will receive a copy of our current catalogue. Ms. Pierson can talk to your group about any timely subject of your choice.

For more information, please contact Margret Delves-Broughton at White Flower Farm.
